DEATH HELD MURDER Over at Eric a coroner's jury ruled Wednesday that Dr. Alexander C. Cameron, 65-year-old Eric physician, who was found Soating in Lake Erie on May 9, died "through the violence of an unknown attacker." The verdict was reached at conclusion of an inquest, in which it was revealed for the first time that the victim went to his death clutching a "long, black human hair." in hands which were smeared with mechanic's grease. The surprise revelations came during the testimony of Dr. James E. Wallace, assistant pathologist at Hamot Hospital. Police investigators were astonished at the pathologist's disclosures and said they may prove a distinct break in the enigmatic 10-day-old case.

## Scout Troop Discussed For The West Side The West Side

Organization of a new Boy Scout Troop, to be sponsored by the Optimist Club of Warren, was advanced another step at a meeting of parents and prospective Scouts in the McClintock school

Tuesday night.
Tom L. Meneo, chairman of the troop committee, introduced Tom Masterson as scoutmaster for the new unit, to be known as Troop 6, and Michael Letrent as assistant scoutmaster.

It also was announced that regular meetings of the troop will start next Tuesday evening at 7:30 o'clock. The meetings will be held for the present in McClintock school. Boys of scout age are invited to attend.

Scout Executive Frank Parker and Neighborhood Commissioner Bob Moorhead gave brief talks on the operation and activities of a Scout troop, after which the Scout Executive screened a movie, "The Scout Trail to Citizenship."

In addition to Mr. Meneo, other members of the troop committee present were John A. Carbon, Santo Fadale and Francis T. Williams.

#### A DOCTOR AT NIGHT

(Pittsburgh Post Gazette)

"The failure to secure doctors at night has become so urgent and grave," says an article in the current issue of the Pittsburgh Medical Bulletin, "that the public feels that they have been let down by physicians in many localities."

To which many a layman will voice a resounding "amen."

How often have we heard old folks fondly recall the days before medical specialization, when there weren't so many experts too busy to make house visits, and when physicians turned out into the dead of night in real life as commonly as they do today on the calendars of pharmaceutical firms?

Happily, the Allegheny County Medical Society is now trying to meet the problem of emergency and night calls. According to the Medical Bulletin, it proposes to set up panels in various districts composed of physicians who volunteer to make such calls for a week or two.

We can appreciate that the success of this plan depends upon two things. First the families must be reasonable about wanting none but their own doctors and about phoning for service at unusual hours. The society is undoubtedly right in pointing out that "many night calls are unnecessary or are due to negligence on the part of the family to secure medical aid during the day."

Secondly, and most important, competent doctors in large numbers must volunteer to serve if the scheme is to be of value. Frankly, we are skeptical about most volunteer activities where personal convenience is involved. But in this case, the doctors do have an issue of high ethical concern to themselves at stake. As the society tells them, "Remember the Hippocratic oath of medicine, which stresses service to the people, and play your part in this. emergency care program."

It might well have added that in the long run the question of whether medicine can continue as a purely private activity will probably be decided by the way in which it meets this and similar challenges.

#### DR. JAMES E. WEST

The Boy Scouts of America lost an outstanding leader, friend and champion Saturday in the death of Dr. James E. West at his home in New Rochelle, N. Y.

Many leaders in the Warren County Boy Scout Council recall meeting Dr. West when he came here in January of 1940 to attend the funeral of George W. Olmsted, of Ludlow, who served as camp committee chairman for the national organization.

Dr. West served as Chief Scout Executive of the Boy Scouts from January 2, 1911 to February 1, 1943, when he retired with the honorary title of Chief Scout of the Boy Scouts of America.

Dr. West was a young lawyer in Washington when he became the executive officer of the Scout organization. He had a long record of service with various youth movements in the nation's capital, and was instigator and Secretary of the White House Conference on the Care of Dependent Children formed by President Theodore Roose-

He was reluctant to give up his law practice at the time, but finally agreed to serve as head of the Boy Scouts for a six-month temporary period. The six months extended into 32 years, ending when he retired at the age of 67.

It was under Dr. West's leadership that the Boy Scouts of America grew from a very small organization to one of over 12,000,000 men and boys. Local councils were formed and regional organizations were put into operation. The Scouting movement became one of the few organizations to be officially recognized in a charter granted by the Congress of the United States. The firm foundation on which the Scouting movement is built today and the respect Boy Scouts have earned throughout the land is a glowing tribute to the leadership of Dr.

#### NATIONAL MARITIME DAY

Observance of Saturday, May 22, as National Maritime Day has been urged by Governor James H. Duff. In a proclamation the state executive says:

"I call upon our people to join in the observance with appropriate local ceremonies and direct that the Flag be flown from all public buildings on that day."

Fifteen stitches were taken in the scalp of a careless auto driver. That should fix him up so he can use his head.

We'll admit nature has the best air-cooling system, but it's nothing to blow about during April.

It was under Dr. West's leadership that the Boy Scouts of America grew from a very small organization to one of over 12,000,000 men and boys. Local councils were formed and regional organizations were put into operation. The Scouting movement became one of the few organizations to be officially recognized in a charter granted by the Congress of the United States. The firm foundation on which the Scouting movement is built today and the respect Boy Scouts have earned throughout the land is a glowing tribute to the leadership of Dr.

#### NATIONAL MARITIME DAY

Observance of Saturday, May 22, as National Maritime Day has been urged by Governor James H. Duff. In a proclamation the state executive says:

"I call upon our people to join in the observance with appropriate local ceremonies and direct that the Flag be flown from all public buildings on that day."

his singleton heart on the theory that the opponents had the trump suit sewed up and the lead could do no harm. The nine was played from dummy and West refused to put on the queen.

The king of spades was the next play, followed by the three of hearts from dummy. When West again played low, declarer finessed the ten of hearts. The jack of clubs was led and allowed to ride when East refused to cover. Then the five of clubs was played and dummy's ten finessed.

The eight of clubs was led, West again went into a huddle, finally refusing to trump and discarding the four of diamonds instead. Declarer trumped with the five of hearts and mashed the ace of spades, discarding the three of diamonds from dummy. The ace of trumps was cashed, a small dia-mond led to the king, the king of trumps picked up West's queen and the dummy was solid.

They are still arguing about West's double. Declarer might have guessed the location of the queen of hearts, but of course the double made it easy.

#### **Anti-Communist Bill**

(Editor's Note: This is the second of two stories on the Anti-Communist bill which the House is expected to pass.)

#### By JAMES MARLOW

Washington-(A)-This is an outline of the bill which the House is expected to pass in a bid to cripple, if not wreck the Communist

The whole bill is based on three ideas which the committee members say can be proved in court if it becomes law and is tested:

1. That there's a world conspiracy to set up Communist governments everywhere-if necessary,

by force and violence. Such governments are "to- or Communism abroad?

talitarian dictatorship under the control of a foreign power.

The phrase—"under the control of a foreign power"—is stressed in

the bill. So apparently it would be all right for the party to urge a dictatorship of the proletariat, or workers, arrived at by democratic means if the dictatorship would not be under foreign control.

But it's hard to imagine any American Communist, who sought wice support here, ever suggesting overthrowing this government so Russ.a could be boss here, with

or without this bill.

But what of Communist-front organ rations, groups set up to nelp the Communist party here

2. Such governments are "to-talitarian dictatorships" because they mean absolute rule by one party—the Communist party—for the party and the government are one and the same thing.

3. Communist organizations everywhere are part of this world controlled by Russia.

Supposing the bill became law, this is how it would work:

A rising vote of thanks was given the teachers, especially Miss Peterson, for their part in training the children.

After the entertainment, Mrs. Roger Olson, president, conducted the regular business meeting. Mr. Merenick gave a report on the project of securing rest rooms for Lacy playground. There was some discussion following this report and a committee was appointed to further investigate the possibilities of securing these rest rooms which, it was pointed out, are very much needed. Announcement was made of the pie social to be held in the school building on Wednesday, May 26. Mrs. Odell and Mrs. Dickerson were asked to audit the books. NARROW ESCAPE

Corry Journal: Shortly after 8:30 this morning another narrow escape from a tragic accident occurred on the Center street clossing of the Erie Railroad. A young girl, apparently enroute to the Junior High School, almost stepped into the path of a westbound Erie freight pulled by one of the Atc.
Diesel locomotives. While the Atl. gates were down, she had disre- Bal garded the barrier and was about to step into the train's path when Bar Watchman Joseph Barrone reached her side. She did not appear unduly alarmed over her close call but others who witnessed the action were startled and her disregard for the crossing gates promted much comment.

LOBLAWNE

Everything at Loblaws looks good this week. Fresh fruits and vegetables are in abundance and although meats in general are not too plantiful because of light shipments last week, we are happy to say that our Lamb Shoulder Roasts are really a big value at 45c. Beef Tongues at 45c a pound are also a real economy buy. They are delicious when served either hot or sliced cald. They are good for sandwiches too.

We would like to call your attention again to our fillers of Haddock, Perch, and Cod which never looked better and are the outstanding buy in this department at only 33c a pound.

Here's a tip. Try those Saratoga Beans at 10c a can. There is real flavor here, and what a buy at this prics.

If you are doing your own baking again, don't forget that Watson's Flour for only \$1.69 for a 25 pound suck and Golden Maid Margarine for 33c a pound are really a fine baking combination. Both of these have our complete approval.

Before closing, let us remind you that Betty Crocker Pyequick makes a delicious two crust apple pie-filling and all, for only 37c. It is a delicious dessert served with a wedge of our fine Old Sharp Cheese.

The Savings and Retirement Fund of the Sylvania Electric Products Company totaled nearly \$5,000,000, the members of the Plan were informed in the annual report released recently by the S. & R. Plan secretary, Wilfred G. La Rocque.

The total of 4,706,000 gives the 8,505 members an average of \$553 each. The members of the Plan now outnumber the 7,845 common stockholders.

The 1947 report showed that during the year 17 members of the Plan had retired and 24 had died. Three retired members died during the year.

Of the more than \$100,000 that was earned in interest, dividends and sale of the securities owned by the Plan, \$42,000 was put into a reserve amount to provide retrement annuities. Approximately \$58,000 was divided among the members' accounts, giving them an interest rate of slightly over on their balances.

The 1,647 members who left the company for reasons other than death or retirement received an average of \$203 each. About half of that, on the average, consisted of their own contributions.

Of the funds of the Plan, which started in December, 1942, half are in government bonds, a quarter in public utility bonds and the remainder in industrial corporations, railroads, investment trusts and in preferred stocks and cash,

HONOR PLEDGE: Seth L. Myers, of Sharon, secretary of the Northwestern Division of the State Giving Erie and Vandergrift stiff Federation of Sportsmen's Clubs, passes along a swell idea which he ran across while interviewing John Bell, Sharon Westinghouse superbroadcast.

Seth writes: "Bell described his plan as an merous other local keglers hit into honor pledge wherein fishermen the prize brackets in the doubles, would sign a card and carry it with them on fishing trips. They cluded: with them on fishing trips. They cluded: Doubles—Paul Coppola would take an oath to themselvand Dr. Jim Giunta, 1175; R. es not to keep trout under 10 in-Check and Fred Baldensperger, Check and Fred Baldensperger, Prank Gerardi and Fred ches unless they are hooked too deep to survive if returned to the Gagliardi, 1109; Tom Masterson water. It would also include not to and Tony Fazio, 1104; and Jim pitching, allowing only five hits keep more than six trout on a

single fishing trip.
"The plan would be to reverse the legal limit on size and number from 10 trout six inches long and over to six trout 10 inches or longer, as a self imposed honor limit. Only the fisherman himself would know whether he lived up to his pledge: Bell feels that average fishermen are sports enough to live

up to any pledges they sign.
"Certainly many thousands of unharmed trout could be returned to the water through such a plan. If it were to be taken up throughout the state it would soon become recognized as poor sportsmanship to keep small trout unless they
